

# Parveen Makwana

UI/UX Designer | Front-end Developer | Product Designer | Design Systems Specialist

[Mail](#) | (+91) 93 5057 0032 | Haryana, India | [LinkedIn](#) [Portfolio](#)

---

I'm a computer science student with a long-standing passion for UI/UX design, nurtured since childhood through drawing and painting. One of my illustrations was even featured on the front page of my Polytechnic college magazine. I hold a diploma in computer science from this institute and co-lead a startup with my co-founders, focusing on UI/UX design. I also enjoy coding and have worked on projects like transforming a Flappy Bird clone into a Mario-style game. I'm seeking a role that emphasizes UI/UX design, complemented by opportunities for frontend development.

---

## Founder and Creative Lead

Oct 2025 - Present

[LABSDOT](#)

Collaborate with a team of three on project planning, website structure, and client tasks.

Focus on onsite animation and UI/UX design.
